Do all the leaves have similar colours, shapes and margins?

Dayaram said – I did not know that there were so many types of leaves. Look, some are round, some are long and some are triangular.

Ammu said – They are of so many different colours as well. Some are light green and some are dark green. Some are even yellow, red and purple. There is one which is green but has white patches on it.

Look, even the margins of these leaves are different from each other. Some have straight margins and some uneven. Some of these margins even look like a saw – said Shabnam.

Ammu and Shabnam shouted together – We also want to be the 'Plant fairy.'

Didi said – Not today, may be next Sunday. It is time to go home now.

On the way back, Didi recited a poem for everyone.
